

Innovation in E-Commerce - Top Story

The Bavarian company, HFO Telecom, based in Oberkotzau is a specialist in ALL IP and Cloud Telephony. As an innovative telecommunications company, HFO Telecom offers customised and highly-professional communications solutions.

THIMM has developed a sustainable and innovative shipping box with an integrated security lock made from corrugated cardboard which prevents any unauthorised opening and ensures products are protected securely. Large-surface design opportunities on the shipping box provide a huge potential for a high-impact brand presentation.

HFO Telecom

Jörg Jahn, Marketing Director HFO Group

"[...] From THIMM we have received a packing box that precisely corresponds in design and colour to our ideas and discussions. Stable and secure. It is our utmost priority that our goods arrive intact at the customer. And this is guaranteed with the packaging from THIMM. And more than a bonus point: The material. We are also trying to do something to counter the plastic mania. The THIMM box is made from cardboard and is 100 percent recyclable. And that's how it should be!"

Jörg Jahn, Marketing Director HFO Group

CUSTOMER BENEFITS

Secure shipping box with a sustainable security lock

- » The shipping box is sealed without adhesive tape thanks to the integrated locking technology made from sustainable corrugated cardboard
- » The anti-theft shipping box cannot be opened without destroying it
- » The recipient can verify the intactness of the packaging by the tamper-proof lock
- » The integrated security lock made from corrugated cardboard protects from unauthorised opening
- » Innovative locking technology protects the product during transportation
- » User-friendly handling and opening for the recipient through the additional tear perforation
- » Large-surface design opportunities for a high-impact brand presentation in first-class print quality
- » Shipping box made from corrugated cardboard can be easily recycled
