

FLUTE TYPES

THIMM T-Flute is a sustainable flute type between B-Flute and E-Flute. It creates up to 25% savings in warehousing and transportation and thus protects the environment through lower CO₂ emissions. The flute type is ideally suited for use with lighter-grammage papers or direct printing.

THIMM T-Flute

Sustainable flute type between B- and E-flute

CUSTOMER BENEFITS

Up to 25% savings* in the entire logistics and packaging process

- » Reduced internal company transport volumes
- » Lower storage volume due to fewer pallet storage locations being required
- » Improved productivity in the packaging process due to a higher number of die-cuts in the packaging machine magazines

Improved processing properties in production

- » Higher-quality print image also when using lighter-grammage papers
- » Better print results in direct printing through a consistent surface structure and lower washboard effect
- » » Improved operating properties in the mechanical packaging process
- » Improved handling properties for manual packaging assembly

*Savings in comparison to B-Flute

DESIGN FEATURES

- » Flute height $h = 1.7 \text{ mm}$
- » Flute division $t = 4.7 \text{ mm}$
